

Fig. 1

Dose response :

Figure 1 is a Western blot analysis showing the expression of MKP1, IL-8, and Annexin I in OX-PAFC and PAFc treated cells. The blot is divided into two main sections: OX-PAFC and PAFc. The OX-PAFC section shows bands for MKP1, IL-8, and Annexin I. The PAFc section shows bands for MKP1 and IL-8, but no band for Annexin I. Molecular weight markers (0, 15, 30, 60, 120, 240 kDa) are indicated on the left.
